### Testimonial for Carmine de Paulo

15.12.12

I live in quite an old house in the Town Centre and one of my outside walls was in serious need of repair. Last year I asked Carmine to give me a quote for this plus some rendering work I needed. Carmine turned up when he said he would and gave me a very agreeable quote. Unfortunately I wasn't able to afford the work straight away and it had to wait until this year.

Carmine has just finished the job which due to the adverse weather conditions took longer than anticipated. Hover Carmine was out in the wind, the rain, the hail and the sun working on the job which now looks absolutely superb.

I have no hesitation in recommending Carmine to others.
